

## PROJECT 1 README

### Instructions to compile and execute the WEP FMS attack:

1. Copy the following files into a new directory:

```
crack.c
makefile.mak
log1.wep
log2.wep
log3.wep
log4.wep
log5.wep
```

2. Produce the executable by typing the following command in the terminal:

```
"make -f makefile.mak"
```

3. To run the program, type the following command:

```
./crack logfile.wep
```

---

### RESULTS:

Log Filename	WEP Password
log1.wep	enemy
log2.wep	point
log3.wep	court
log4.wep	chief
log5.wep	white

```
lkamath@ubuntu: ~/Desktop/Net Sec
lkamath@ubuntu:~/Desktop/Net Sec$ make -f makefile.mak
make: Nothing to be done for 'all'.
lkamath@ubuntu:~/Desktop/Net Sec$ ./crack log1.wep
The WEP Key for log1.wep is : enemy
lkamath@ubuntu:~/Desktop/Net Sec$ ./crack log2.wep
The WEP Key for log2.wep is : poin
lkamath@ubuntu:~/Desktop/Net Sec$ ./crack log3.wep
The WEP Key for log3.wep is : court
lkamath@ubuntu:~/Desktop/Net Sec$ ./crack log4.wep
The WEP Key for log4.wep is : chief
lkamath@ubuntu:~/Desktop/Net Sec$ ./crack log5.wep
The WEP Key for log5.wep is : white
lkamath@ubuntu:~/Desktop/Net Sec$
```
